## Change alone is the changeless law

In the current scenario of rapid globalization, customization, fast changing business environment of mergers, acquisitions, joint ventures and collaborations, and corresponding organizational changes, the

the business process of enterprises need to have the capabilities to adapt to new situations seamlessly

Functionality can no longer be considered as the only decisive criteria while adopting a suitable framework. To support and sustain an organization, the IT backbone must have a certain basic feature that enable it to sustain itself and the whole business process not only in the present but also in future

### Vision

To be a premier leader in Customized ERP packages and System Integration Solution

### Mission

To provide out-of-box customized solutions to the medium & large sized enterprises, which are

uniquely competitive, yet secure, based on their requirement that make them capable to survive and prosper in the era of fast changing business and organizational requirement

## Daphne Leadership

Daphne being led by an able and motivated team of individuals having a strong history of excellence in the field of Technology and Management

We are a strong technical team that is conversant with functional areas, solution development and system integration, which is properly supported by our state-to-art development platforms and R&D facilities at our development center

“ Daphne talent, engineering capability and understanding of our core business, have contributed immensely to our success. We value this relationship and look forward to strengthening it further in the year to come “

—ACRS, India
